Recycling Competition

This is an open competition for all 4-H members.

Create an article made from materials around your house. Articles must be made from a minimum of 75% recycled materials e.g., a quilt from old clothing with new quilt batting, a hooked rug using old clothes using a new burlap backing and rug binding, or making an item from an old wooden article and using new glue, paint and nails.

A completed report for the article must accompany it at ALL levels of competition.

Entries will be evaluated on the following criteria:

25% – written explanation
50% – finished project
25% – recycled materials

The Recycling Competition takes place at county level; the top two junior and senior articles per county are eligible to move on to 4-H Nova Scotia Provincial Show.

Note: Members may enter their recycling article in either the recycling competition or in the appropriate section of their project class, but not in both competitions. Projects cannot be double-tagged.
