

DAIRY CLIPPING

(Class #83)

REGINALD & DONALD SCOTHORN MEMORIAL Project Competition

Teams will be evaluated on the following: Report Card, Clipping and Showmanship.

Rules & Regulations

1. This is a team competition, members may be either both junior members, or both senior members, or a combination of the two.
2. Counties may send one team to the provincial competition at the 4-H Nova Scotia Provincial Show. Team members will be selected at a county competition.
3. Once a member has won the provincial competition, they are no longer eligible to compete with the same team member in subsequent years.

Animal Requirements

1. The teams competing in the Dairy Clipping Competition will each provide an animal meeting the requirements/guidelines.
2. Teams who do not supply an animal for the competition will not be permitted to proceed in the competition.
3. The organizing committee will provide one additional animal which meets stated guidelines, to be used as a spare in the case where one of the animals must be disqualified due to sickness, injury, or safety concern.
4. Organizers of the competition must ensure that all animals do not exhibit signs of illness, contagious diseases, that they meet the requirements of the competition, i.e. required age range, no horns, hair growth, etc., and do not pose a safety concern.
5. The judge and/or organizers of the competition will determine if the spare animal is to be used in the case where one of the animals is sick, injured, or is a safety concern.
6. If it is determined by the judge and/or organizers that an animal does not meet the outlined criteria, then selection may be done in another manner.
7. Prior to the competition draw for animals, a team member will walk the animal they supplied to the competition in front of the judge and/or organizing committee. This is to ensure the animals are suitably broke, and safe to handle. Animals used for the competition must have been previously shown or broken suitable for show.
8. Animals used for the competition have no height restrictions.
9. Animal used for the competition must have at least three weeks of hair regrowth prior to the event.
10. Animal used for the competition must be between the ages of 8 and 10 months.

Animal Care

1. Team members are responsible for supplying and caring for their own grooming/clipping/fitting equipment/materials/supplies during the competition. In the case where the animal provided to the draw requires specific grooming/clipping/fitting equipment/materials/supplies, the team supplying the animal must provide the specific equipment/materials/supplies to the draw.
2. The members supplying the animals are responsible for providing all feed and bedding requirements for the supplied animal for the duration of the show.
3. Team members/animal owners understand that team members are responsible for feeding, handling, preparing, and caring for their competition animal for the duration of the event, as this is part of their score. All feeding instructions will be provided to the teams for their competition animals. From then on, it is the teams' responsibility to feed and care for the calf that they drew until the conclusion of the

competition. Ensure someone from the committee feeds and cares for the spare animal throughout the event.

Competition Guidelines and Scoring

1. The judge does not have to be in attendance for the selection/draw, and members can work with their animals following the selection/draw, but no clipping may be done until the assigned clipping time.
2. Ties in the competition are to be decided using the team's score in showmanship – highest over lowest.
3. The welfare and wellbeing of all the animals will be foremost in the competition. The committee responsible for the competition will ensure animals are well cared for (including spares).
4. Team members must submit their competition report cards by the time indicated in the program.
5. In the case where after the event "scratch date" an individual team member cannot continue in the competition; the remaining team member may continue in the competition. For aspects of the competition where points are allotted to each team member the remaining team member can only earn points for their own work.
6. In the case where a member must temporarily step away from the competition for good reason, the remaining member may continue working, however, clipping, feeding, and stall clean-up/prep is a joint effort for members to share equally.
7. **Teams will be evaluated on the following:**
 - **Report Card (20%)** – Members determine the weaknesses of the animal and explain how these are to be overcome by proper fitting and clipping.
 - **Herdsmanship (10%)** - Team effort – Members provide proper care and handling, feeding, watering, stall and animal cleanliness (includes cleaning out stalls after animal leaves).
 - **Showmanship (30%)** - 15 points will be allotted to each team member based on their showmanship abilities and how they handle the animal in the ring. Team member points will be combined for a combined score.
 - **Fitting & Clipping (40%)** - 20 points will be allotted to each member based on their fitting and clipping abilities and techniques as well as overall teamwork and sharing of tasks. Team member points will be combined for a combined score.
