

Building Blocks Competition

Building Blocks members, juniors and seniors, who successfully complete all project requirements for Achievement Day are eligible to take part in their county level Building Blocks Competition (often held at their county show).

In this competition, members will be given a theme or topic and will have fifty (50) minutes to complete their design. Judging will be based on creativity, use of theme/topic, and construction/sturdiness of design. Only the completed item will be judged. All supplies for the competition will be provided.

The top junior and senior member from each county advance to the 4-H Nova Scotia Provincial Show. For additional details, scoresheets, rules and guidelines, please contact your Regional Program Coordinator.

NOTE: Articles created must be returned after judging, members will not be permitted to take their article home with them.
